PANORAMIC

A LIVING ROOM WITH A VIEW OF THE LUNGO SILE PARK

PIAZZETTA

A LIVING ROOM WITH A VIEW OF THE LUNGO SILE PARK

A refined contemporary living room, bathed in natural light thanks to the large windows overlooking a tree-lined garden on the banks of the river Sile. The dominant element of the space is the central Uppsala fireplace, with its modern and bold design: a cylindrical structure with a dark base and suspended black hood, with the fire in the center. From every corner of the living room, you can enjoy the view of a particularly beautiful and evocative flame embraced by the 360-degree panoramic glass without any metal profile.

Next to the fireplace, the wall unit features deep, perfectly symmetrical vertical niches, some of which are used for storing wood. These architectural elements, clad in dove-gray tones, give visual depth and a sense of rhythm to the wall.

The space combines functionality and style with understated elegance, where every detail — from the choice of materials to the arrangement of the furnishings — is designed to create a welcoming atmosphere with great aesthetic impact.

The UPPSALA fireplace of the PANORAMIC range, is a fireplace with a striking visual impact which, thanks to its technological features, is an example of a perfect combination of technological innovation, sophisticated design, and fireplace and handcrafted majolica surround tradition. .

It is a pleasure to enjoy the emotion of the crackling wood.

The vertically sliding panoramic glass, which folds away completely into the base, is motor-driven with button controls.

Among the distinctive features are the large black steel hood, suspended by a custom-made bracket and the base clad with precious large hand-crafted Majolica panels surrounding the firebox.

It is a place where you can enjoy the pleasant warmth of the fire and the dancing flames with a wide view of the park, where the seasons follow one another, offering different colors and images every day.
