IN THE HEART OF THE DOLOMITES THE EXCITEMENT OF FIRE AT 360°

The spectacle of fire, the excitement of the crackling of wood with its heat come to life in the heart of a tabià in Val Zoldana. At the foot of the Dolomites, in Val Zoldana, the presence of tabià, the typical buildings once used as barns, is characteristic. More than 300 tabià can be encountered along the 20 kilometers from Cencenighe to the San Pellegrino Pass: some are isolated, others blend in with the village houses, and still others create villages unto themselves. Their age varies from 300 to 70 years, and the oldest still standing dates back to the 17th century. One can know the age of a tabià by observing the main beam, that of the "Ridge" of the roof.

In one of these small hamlets, thanks to a carefully coordinated renovation by designer Mirta Lando, there is the tabià inside which the fireplace of the PANORAMIC collection by Piazzetta was installed.

In the renovation work, the choice was to favor and highlight the materials as original as possible. The distribution of spaces revolves around the fireplace, which becomes the heart of the house.

Being in a central position it is enjoyed by both the living and dining/kitchen areas, and also being under the open staircase, the heat rises also to the upper floor thus giving the whole house a pleasant feeling of comfort.

The PANORAMIC M360Q is a fireplace with a great scenic impact and thanks to its modern technology it ensures optimal combustion with low emissions for a low environmental impact. It is the perfect combination of technological innovation, sophisticated design and wood fireplace.

It becomes the beating heart of the room, a gathering point around which to sit, share the exciting crackling of wood, enjoy the pleasant warmth of the fire and the beautiful and enchanting flame, embraced by the 360-degree panoramic glass without metal profiles. The vertically sliding panoramic window, which folds away completely into the base, is motor-driven with button controls.

The fireboxes are available in three finishes: Nero, Bianco and Cor-ten.
